

What is BFET sm?

- 1- BFET token has been built on Binance Smart chain network. BFET is designed as a high-performance to provide many services in 1 platform. It is Fooshia social media platform that integrate all social media services and reward content creators for contributions to the network. BFET as the first token to enter the field of social media, to provide solutions that the current means of communication have not been able to solve so far. It provides the world with a decentralized social media platform, which can share profits with holders of BFET tokens and is not subject to government policies.
- 2- With BFET tokens, users will be able to spend it across the BFET ecosystem. The BFET Network aims to allow retail acceptance of BFET as a payment method for all Fooshia social media services.
- 3- BFET has been launched as a utility token in BFET Ecosystem, an innovative social media platform that addresses the needs of this current generation of users. This younger generation of social media users seeks a platform that addresses both their needs as early crypto adopters as well as their evolving needs in social media.
- 4- BFET is a reflection token, and this means every transaction on BFET has 1.5% transaction fee, the 1% will be redistributed automatically between BFET holders. And 0.5% will go to a specific wallet to use to support the influencers people on FOOSHIA to be more influential in their country or community.

In simple words: if you transfer 100 BFET to another one he will receive 98.5 BFET and the rest 1.5 BFET will be redistributed as described above.

In other words, if you own BFET, your balance will increase every day without need to staking

OUR MISSION:

Is to "Lift BFET network to New Heights" by offering investors an innovative, user-friendly, one-stop-shop to find everything they need to not only locate a new token about to launch to give every person in the world an equal chance to manage and improve their financial security.

Provide every Holder with simple and effective ways to gain exposure to digital assets.

Lower the barrier for entry to a more advanced financial ecosystem.

Operate as a community-focused and community-driven digital asset, fully decentralized in every sense of the word.

Establishing a social media that is not subject to the policies of a particular country and shares profits fairly with its participants, and its motto is to advance society and the human race (Yes, we know that it is difficult, but trust me, it is not impossible, even Tom Cruise can do it)
